

My family enjoys not receiving harrassing phone calls at all hours of the day by telemarketing companies. For the people that don't mind being called and purchasing from these companies then they are not required to be on the no call list. This is my choice to be on the no call list and I do not under any circumstances want the no call list to become non-existent. This is a choice by me not a requirement. Please uphold Indiana's No Call List. Thank you for your time.
